PROFESSIONAL SUMMARY

Second-year Computer Science undergraduate at IIT (University of Westminster, UK) focused on building scalable web and mobile applications using MERN and Flutter. Experience across API design, backend logic and frontend development with JavaScript, Java and Python. Looking for a software engineering role to contribute to production-level systems and improve engineering depth.

WORK EXPERIENCE

Software Engineer Intern – VisitXL

March 2025 - Aug 2025

- Built and maintained the company website for VisitXL, a travel agency and tours business, using Python and Flutter.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, HTML, CSS

Frontend: React, Next.js, Flutter, HTML, CSS

Backend: Node.js, Express, FastAPI

Databases: PostgreSQL, MySQL, Firebase

Tools & Platforms: GitHub, Figma, VS Code

PROJECTS

AgriVora - Plant Recommendation Mobile App

Flutter, FastAPI, Python (ML), Firebase

- Developed AgriVora, a mobile app that recommends suitable plants/crops based on soil properties, pH, GPS, and weather data.
- Built front-end screens using Flutter with modern UI components.

Stock Market Helper - Financial Analysis Web Platform

Next.js, TypeScript, Node.js, Express, FastAPI, Python, PostgreSQL

- Developing a full-stack stock analysis web application enabling investors to upload company financial statements as PDFs and receive automated ratio calculations.
- Building backend services with Express and FastAPI to process financial data and compute liquidity, profitability, leverage, and efficiency ratios.

Traffic Data Analysis

Python

- Implemented data handling functions to store, update, and process traffic information.
- Used Python logic to interpret traffic patterns and generate structured outputs.

Quality Education Web Page

HTML, CSS, JavaScript

- Designed and built a responsive educational web page promoting SDG Goal 4: Quality Education.
- Created a visually appealing layout using HTML & CSS with clean structure and modern styling.

Plane Ticket Booking System

Java

- Developed a Java console-based application for airline seat reservation and ticket management.
- The system allows users to search for available flights, choose seats, and confirm bookings efficiently.

EDUCATION

BEng (Hons) Computer Science	Sep 2024 - Present
Informatics Institute of Technology (IIT) - Affiliated with University of Westminster, UK	
Foundation Program	2023-2024
Informatics Institute of Technology (IIT)	
Secondary Education	2011 - 2023
St. John's College, Jaffna	
G.C.E. Ordinary Level Examination - Completed with 5 A's and 4 B's	

CERTIFICATIONS

- Hands-On Generative AI with Multi-Agent LangChain: Building Real-World Applications - LinkedIn Learning
- Prompt Engineering with LangChain - LinkedIn Learning (2026)
- Hult Prize – Participant

LEADERSHIP & VOLUNTEERING

Informatics Institute of Technology (IIT)

- Member, Students' Union - Finance Team (2025/2026)
- Treasurer, Narunthingal Committee (2026)
- Volunteer, Narunthingal 2025

St. John's College, Jaffna

- Senior Prefect (2023, 2019)
- Assistant Secretary, Tamil Union (2023)
- Member, Hindu Union (2023)
- Junior Prefect (2018)
- Prefect - Middle School (2015)

EXTRA CURRICULAR ACTIVITIES

- Coordinated and organized university events including Hearts & Roses 2026, Stagecraft 2026, and Avuruthu 2026 as a member of the Students' Union.
- Won the All Island Carnatic Instrumental Competition five consecutive times (2017-2023).
